

WW107, WW110

Wilkins 375 Check Removal Tool

Models:

WW107 – 1" 375

WW110 – 1 1/4"-2"

Use:

Check Module Removal

Modules are located inside the vessel and are sealed by o-rings

Both modules slide toward the inlet of the housing

Place the tool on the vessel with the outlet side facing the push rod

Rotate handle clock-wise until the modules are free
